Learning, Living and Relationships*  
Southview School

## Provincial Achievement Test Summary Report November 2025

### **Division Comments:**

Our data analysis includes the 2023/2024 and 2024/2025 Provincial Achievement Test results. The school's 2025 results are compared to the school's previous three-year average.

It is important to note a few key items:

- In 2024/25, Grade 6 Science, French Immersion Language Arts and Literature (FILAL), and Français Langue Première et Littérature (FLPL) provincial achievement tests were not administered.
- In 2024/2025, schools piloting the new Grade 6 Social Studies curriculum were not required to administer the provincial achievement tests in May and June 2025.
- The 2023/24 Provincial Achievement Test results do not include students who participated in the optionally implemented/piloted curriculum and were excused from writing the Grade 6 PATs in those subject areas.
- 2022/2023 and earlier reflect the 2007 Program of Studies. 2024/2025 is a new test that reflects the 2023 curriculum. Discretion must be used when comparing results over time. Standards for the new test were set in 2025.
- Participation in the Provincial Achievement Tests was impacted by the fires in 2022/23 and 2023/24. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.

### **School Comments:**

While current academic results indicate that Southview School's achievement is below both the divisional and provincial averages, we view this as an important opportunity for continued growth and improvement.

In particular, the Mathematics Provincial Achievement Test reflected lower results this year; however, this assessment represented the first administration of the new curriculum, which presented challenges across both the province and the division. These results provide valuable insight into areas of strength and where further instructional support is needed as teachers and students continue to adapt to the new expectations.

As a school community, Southview remains committed to enhancing teaching and learning practices that support student success within a diverse and complex school population. We continue to focus on clearly identifying and communicating learning intentions and success criteria, ensuring that students understand what they are learning, why it matters, and how they can be successful. Teachers are also dedicated to providing timely, meaningful feedback to help students take ownership of their learning and make measurable progress.

Through ongoing professional collaboration, targeted instruction, and a focus on evidence-based strategies, Southview School is working diligently to strengthen academic achievement and ensure all students experience success.
